

Temporary traffic changes on Pacific Highway, Mororo

Roads and Maritime Services, Pacific Complete and its contractor partners are working together to deliver the Woolgoolga to Ballina Pacific Highway upgrade.

As part of building the upgrade, there will be temporary traffic changes on the Pacific Highway and Lewis Lane, Mororo from December, weather permitting.

Traffic will be moved onto the new bridge over the Clarence River North Arm at Mororo and the two temporary traffic diversions on either side of the North Arm will be removed. An 80km/h speed limit will be reinstated.

Also at this time, the intersection of Lewis Lane and Pacific Highway will be moved 400 metres to the south to allow work on the Iluka interchange northbound off ramp to continue. The new intersection includes

acceleration and deceleration lanes for north and southbound motorists and temporary signage will be in place to assist with wayfinding.

Motorists will be kept informed about dates for these changes through electronic message signs along the highway and local roads and livetraffic.com.au.

How we manage our work

The project team will use machinery that generates noise, light and vibration. To manage this work we will:

- turn-off machinery when not in use
- direct temporary lighting down and away from homes
- plan activities to minimise noise from reversing vehicles
- locate equipment such as generators as far as possible from residences

All work will be carried out in line with the project's Conditions of Approval and Construction Environmental Management Plan.

Work hours

Typically work will be carried out during the project's approved construction hours, which are:

Approved construction hours	
Monday to Friday 7am–6pm	
Saturday 8am–5pm	

In areas where residents live more than 200 metres from the work, extended work hours are allowed between 6am and 7am and 6pm and 7pm from Monday to Friday. No work will be carried out on Sunday or a public holiday unless agreed with residents.

Work outside of approved construction hours

To complete these traffic changes, work is required outside approved construction hours for technical reasons. This work is planned between 6pm and 7am for up to five nights at Mororo for asphaltting, line marking and barrier relocation, weather permitting.

Building next to, over and on existing roads, means traffic may be stopped or reduced to one lane while work is carried out. By working at night, delays are minimised and journey times for motorists are less affected.

Traffic changes

To manage queuing and safety, there will be some temporary traffic changes and lane closures that may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. Motorists are encouraged to remember PAC – Plan, Awareness, Caution. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.

We apologise for any inconvenience and thank you for your patience during this important work.
