Temporary traffic changes on Pacific Highway for Tyndale north interchange work

Roads and Maritime Services, Pacific Complete and its contractor partners are working together to deliver the Woolgoolga to Ballina Pacific Highway upgrade.

To build the Tyndale north interchange there will be a number of temporary traffic changes near Bondi Hill Road, Tyndale from late April. These changes will allow us to maintain capacity on the road network while we safely build the upgrade.

Motorists will be kept informed about dates for these traffic changes through electronic message signs and livetraffic.com.au.

Access to private properties will be maintained at all times, however, there will be changes. Residents affected by these changes will be contacted directly.

Temporary traffic change 1

Highway traffic will be moved to the east by about three metres.
Temporary traffic change 2
Highway traffic will be moved west by about five metres.

New access road for Bondi Hill residents
We have almost completed work on the new local access road and overpass bridge for Bondi Hill residents in Tyndale. Once complete access to the new road and bridge will be open to local traffic. Local residents will be contacted when this happens. When the bridge is opened, the old access road to the south will be permanently closed.

How we manage our work
The project team will use machinery that generates noise, light and vibration. To manage this work, we will:

- turn off machinery when not in use
- direct temporary lighting down and away from homes
- locate equipment such as generators as far as possible from residences
- plan activities to minimise noise from reversing vehicles
- monitor noise so we can manage any potential impacts and adjust our work, as required

All work will be carried out in line with the project’s Conditions of Approval and Construction Environmental Management Plan.
Work hours
Typically work will be carried out during the project’s approved construction hours, which are:

**Approved construction hours**

- **Monday to Friday** 7am–6pm
- **Saturday** 8am–5pm

In areas where residents live more than 200 metres from the work, extended work hours are allowed between 6am and 7am and 6pm and 7pm from Monday to Friday. No work will be carried out on Sunday or a public holiday.

Work outside approved construction hours
To complete the traffic changes, work is required outside approved construction hours. This work is planned between 6pm and 7am for up to four nights during each traffic change, weather permitting.

Building next to, over and on existing roads, means traffic may be stopped or reduced to one lane while work is carried out. By working at night, delays are minimised and journey times for motorists are less affected.

Traffic changes
To manage queuing and safety, there will be some temporary traffic changes and lane closures. Please keep to speed limits and follow the direction of traffic controllers and signs. Motorists are encouraged to remember PAC – Plan, Awareness, Caution. For the latest traffic updates you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.

The speed limit in this area will be permanently reduced to 80 kilometres per hour for the remainder of construction.

We apologise for any inconvenience and thank you for your patience during this important work.
