

Removal of site compound at McAndrews Lane, Pimlico

Transport for NSW, Pacific Complete and its contractor partners are working together to deliver the Woolgoolga to Ballina Pacific Highway upgrade.

From mid-February, the project team will start demobilising the construction site compound at McAndrews Lane, Pimlico. This work will take about three months to complete, weather permitting.

The work will involve:

- dismantling and removing office buildings, facilities, fencing and signage
- disconnecting and removing utility services including power, telecommunication, water and sewage
- excavating hardstand areas
- heavy vehicle movements to remove materials and equipment (up to 80 truck movements per day during the peak period of about two weeks)
- restoring and revegetating the land once all materials and equipment have been removed.

What happens next?

After the compound has been demobilised and all materials and equipment have been removed, the land will be restored to its original condition. Some areas near the new highway will be planted with vegetation in line with the project's urban design and landscape plan, which is available to view at pacifichighway.nsw.gov.au

The former compound site will continue to be owned and maintained by Transport for NSW once the Woolgoolga to Ballina upgrade is complete.

There is still work to be done to finish the upgrade between Broadwater and Ballina. After the McAndrews Lane compound is demobilised, contractors will operate from other locations as work continues in this section.

How we manage our work

The project team will use machinery that generates noise and vibration. To manage this work we will:

- locate equipment such as generators as far as possible from residences
- turn off machinery when not in use
- plan activities to minimise noise from reversing vehicles
- monitor noise and implement further mitigation measures, if required

All work will be carried out in line with the project's Conditions of Approval and Construction Environmental Management Plan.

Work hours

Typically, work will be carried out during the project's approved construction hours, which are:

Approved construction hours	
Monday to Friday 7am–6pm	
Saturday 8am–5pm	

In areas where residents live more than 200 metres from the work, extended work hours are allowed between 6am and 7am and 6pm and 7pm from Monday to Friday. No work will be carried on Sunday or a public holiday.

Traffic changes

There will be some temporary traffic changes and lane closures that may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. Motorists are encouraged to remember PAC – Plan, Awareness, Caution. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.

We apologise for any inconvenience and thank you for your patience during this important work.
