

# Coramba Road Interchange

Australian Government

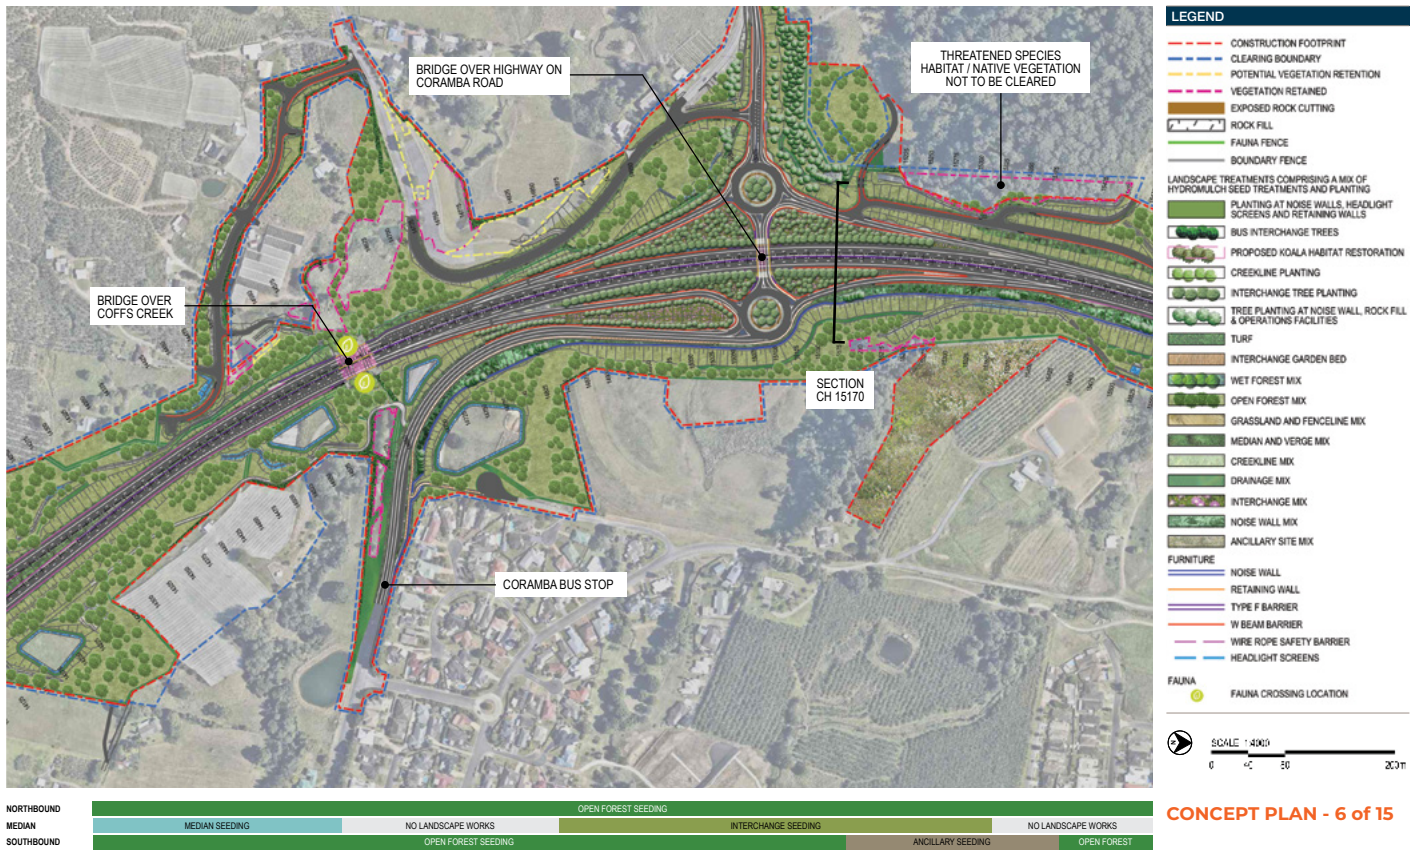

Artist impression of the Coramba Road Interchange, looking north

## Key features:

- The interchange is not promoted as a gateway to Coffs Harbour, but rather a local connection for local community
- Vegetation supports the Coffs Creek corridor and ties back to historical movements of the Aboriginal community
- The noise wall positioned along the eastern side of the highway and Coramba Road will feature a subtle pattern and will be designed to blend in with the local environment
- The diamond shaped design is consistent with other interchanges on the Pacific Highway
- There will be a bus stop located on Coramba Road.

Urban design concept plan – Coramba Road Interchange
